Not everyone had the day off

On the fourth day of the FISU World University Championships Futsal four matches were played in the women's tournament. Brazil and Portugal have already secured their spots in the semifinals. Sunday marks the end of the women's group stage and the start of the men's quarterfinals.

The defending champions, Brazil, finished Group B with a perfect record. However, their victory over Finland did not come easily. Although Brazil dominated the match from the start, their opponents effectively defended their goal. In the second half, Brazil managed to score the only goal of the match, securing a 1:0 victory.

The second match in Group B pitted two teams against each other, each with one win and one loss – both the Germans and the French had previously lost to the favored Brazilians. From the very first minutes, the match was very evenly matched, and it was clear that a spot in the next round of the tournament was at stake. The score remained tied at zero for a long time. We had to wait until late in the second half for the first goal, when the Germans took the lead. The French tried to equalize, but their opponents extended their lead to 2:0. The French team didn't give up and scored a consolation goal in the final second of the match. Ultimately, the Germans won 2:1.

The Polish women secured a valuable victory over the Chinese Taipei team and significantly improved their chances of advancing to the semifinals. However, it was the opponents who opened the scoring, taking a 1:0 lead in the eighth minute. The Polish University National Team quickly stepped up its attacks on the opponents' goal and managed to turn the game around before halftime. First, Zuzanna Maronde scored, tying the game at 1:1, and a few dozen seconds later, Maria Suwada increased the lead to 2:1. In the second half, Dobrosława Skorupska sealed the 3:1 victory with a 10-meter penalty.

The Portuguese women secured another convincing victory. It didn't take long for the favorites to score their first goal – they took a 1:0 lead in the very first minute of the match. The Americans managed to tie the score at 1:1, but the Portuguese team quickly regained control of the match and were back in the lead less than two minutes later. Moments later, the Portuguese extended their lead to 3:1, and scored one more goal before halftime. The Portuguese team started the second half with a bang and quickly scored to make it 5:1. The Portuguese women's dominance was never in doubt at any point in the match. The favorites to win a medal at this year's World Youth Championships in futsal scored four more goals, with one of them coming off an own goal. Ana Oliveira scored three goals for the Portuguese team.

SLOVAKIAN HEART: INTO THE PLAYOFFS UNDEFEATED

The men's group stage is officially behind us. While the competition was fierce, Slovakia enters the next round with confidence as one of the teams with a perfect winning streak.

Ahead of the match against Saudi Arabia, the aim was simple: to secure 9 points. However, Saudi Arabia proved to be a tough, very demanding opponent. "The biggest challenge in the match against Saudi Arabia was that they were quick and small, whereas we're tall," laughs Richard Slanina, one of the players. "They scored two goals against us, something none of our previous opponents had managed. Lithuania didn't score at all, and New Zealand only scored from a penalty. Saudi was definitely our toughest test."

As their team attaché noted before the match, the squad's biggest strength is how well they know each other and how deeply they can focus under pressure. On Friday, that mental strength saved the game. - "The key part was our Slovakian heart, - Richard emphasizes with pride. "We showed how good and strong of a team we are."

With Saturday bringing a well-deserved break for the men's teams to explore Warsaw, the Slovakian squad has the perfect opportunity to celebrate their flawless group stage run.

"This tournament is very good and all the guys feel amazing" confesses Richard.
